SGPA	7.40	7.30	7.39	8.18	8.06	8.64	8.54	-----

TECHNICAL SKILLS

Languages: C(Intermediate), C++ (Intermediate), Python (Beginner), Java (Beginner)
Web Technology: HTML(Intermediate)

PROJECTS

➤ Project 1

- Title of the Project: AI-Driven Density-Based Traffic Management System for Priority Ambulance passage at High-Traffic Junction.
- Team size: 4 members
- Project Duration: 3 months
- Location: Sri Siddhartha School of Engineering

- Guide: prof. Wasimuddin
- Summary: The Experimental results verified that the proposed vehicle detection and counting with density method for highway surveillance scenes has good performance and practicability.

➤ **project 2**

- Title of Project: Wire Car
- Batch size: 2 Team Member
- Project Duration: 3 months
- Location: HMS Institute of Technology
- Guide: prof. Wasimuddin
- Summary: Creates a code that user can play with steering and wheel movement four tires, cube, axles, steering wheel and steering column are required to create the wire car.

AREAS OF STENGTH

I am obedient and self motivated person also I am quick learner and a great team Player.

Team Work: Experience working in groups during projects, collaboration skills.

Communication: Strong verbal and written skills, important for conveying ideas.

Problem Solving: Ability to analyse situation and come up with effective solution.

Time Management: Ability to prioritize tasks and meet deadlines effectively.

AREAS OF INTEREST

- Reading news paper
- Dairy writing
- Swimming
- Traveling
- cooking
